

Make your own contribution to the Town Hall development

We have confirmed the funding we need to progress the major Hebden Bridge Town Hall development, which will bring new community and enterprise facilities to the town.

We've got this far, but if it's going to be as special as Hebden deserves the rest is up to the town. The funders were careful only to contribute to the core costs of the work. We need to ask the Hebden Bridge community to do its bit as well.

We are looking for sponsors. At the moment, we are trying to raise funds to ensure that the new riverside courtyard can be paved with real York stone, not substitute paving. The total cost is £18,235. We want to raise this by 'selling' stone flags (the equivalent of about 1 sq metre of courtyard) at £100 to local sponsors. Could you be one of our sponsors? (Yes, we need 182).

Names will be added to the sponsors' board which will be put up in the building when it's open.

You may also want to buy a flag as a gift, perhaps for a child or young person who will have longer to enjoy the building than the rest of us!

We are also asking local businesses, and people who are able to make larger donations, to help furnish particular rooms. We have a list of things we are fundraising for, from £1000 upwards. Please contact us (Andrew on HB 844026) if you might be able to help.

I would like to sponsor 'sq. metres' of York stone paving, and enclose £..... (£100 per 'sq. metre').
